Very good videos

I have done several variations of first aid course this is by far the best I am a registered nurse however was good to recap and brilliant for the Lay person Very easy to use and reply items. Good to have choice of commentary or just reading. Good to have tests and answers explained. Good small manageable modules - quick and easy to do

Really good course. Love the interactive quiz. Keeps you engaged and helps you learn and reinforce your learning.

I would have been hesitant to help a casualty before this course. Not because I didn't want to help but because I would be scared of doing something that might make the situation worse. This course has given me the knowledge to help someone in need.

The challenges are good because you are put under pressure of time. At times this would happen in reality Brilliant courses and really good to complete, even for those who are unemployed to help keep the mind active and to know what to do in real life situations and to be confident.
